

Table of Contents § 170.315(b)(3) Electronic prescribing

<p>Measure Description:  <b>Prescription-related electronic transaction:</b>                  Create, Change, Cancel, Renew, Fill Status, Medication History including Status, Errors and Verification.</p>	<p>Justification:                  We chose to concentrate on the aspects of this criterion that would:                  Provide a numeric value to indicate both how often this interoperability feature is being used as well as its compliance to the requirement. An increment to this measure indicates that Empower can create a NewRx SCRIPT electronic prescription message and transmit it to a pharmacy via Surescripts Network. This use case will also show successful integration with our ePrescribing partner DoseSpot and through its completion will reveal compliance to the associated criteria listed above.</p>	<p>Associated Certification Criteria:</p>
<p>Metric Description:                  Report the % of all successful prescriptions sent over a (3) month period                  Report the % transmission rate for these same time period                  These rates will be used as a baseline for future testing criteria</p>		<p>Standards Implemented:                  NCPDP SCRIPT Standard, Implementation Guide, Version 2017071                  RxNorm, September 8,2015 Full Release Update</p>
<p>Developer Info:  <b>Empower Systems</b>                  1200 Harger Road, Suite 408                  Oak Brook, IL 60523                  (305)766-3245</p> <p>Care Setting:  <b>Inpatient</b>                  Real World Testing URL:  <a href="https://www.empower.md/real-world-testing/">https://www.empower.md/real-world-testing/</a></p>	<p>Product Info: <b>Empower Inpatient+Ambulatory</b>                  Version: <b>1.1.57</b>                  CHPL ID:  <b>15.04.04.2918.Empo.01.01.1.230726</b></p>	<p>Methods Use to Demonstrate Interoperability:                  Reports and audit logs Including Automated Measure (315.g.2)</p>

Test Step:	Testing Procedure:	Expected Outcomes:	Key Milestones/Dates:	Comment(s)
1	<a href="#">Identify Empower Client who's currently using eprescribing</a>		May, 2024	
2	<a href="#">Log into Dosespot's admil reporting feature</a>	have admin select e-Rx promoting Interoperability report	June, 2024	
3	<a href="#">Select 3 month date range</a>	enter 3 month date range and view report	June, 2024	
4	<a href="#">Have user select outstanding transmission error report</a>			
5	compile data		July, 2024	

<p>Attestation:  <b>This Real World Testing plan is complete with all required elements, including measures that address all certification criteria and care settings. All information in this plan is up to date and fully addresses the Health IT Developer's Real World Testing requirements.</b></p>
